
Objective

Motivated and detail-oriented Land Surveyor with hands-on experience in infrastructure and electrical projects, seeking to contribute technical expertise and field leadership to a dynamic engineering company.

Experience

- **SONATRACH - CPECC - MATRAFOR**
Land surveyor

 - Natural gas production complex expansion project - SONATRACH - Phase 3
 - Implantation with high precision for pipelines.
 - Elevation control and earthwork volume calculations (cut and fill).

2025 -
- **RADCO**
Land surveyor

 - Topographic surveys of the land designated for the solar power plant installation.
 - Use of total station and leveling instruments.

2025 -
- **CRCC**
Land surveyor and team leader

 - Performed topographic surveys and layout works for the Béchar–Gara Djebilet railway line.
 - Supervised a team of surveyors to ensure precise execution of rail alignment, earthworks, and structure layout.
 - Set out control points, alignment axes, and platforms using Total Station and GNSS.

2025 - 2025
- **IGAM**
land surveyor

 - Performed precise implantation and alignment for the 60kV power line connecting the main substation to the tramway station.
 - Conducted topographic and leveling surveys to support foundation and tower installation.

2020 - 2021
- **Decoration company (Algeria)**
Manager

 - Assisted in interior decoration and plasterboard installation (Placo-plâtre), ensuring precision and smooth finishes.
 - Contributed to layout measurements and alignment for ceilings, partitions, and decorative elements.

2017 -

Education

- **Institut de formation supérieure Lhadi Amrani - Khenchela**
Senior technician in land surveying

2017/2020
- **University of khenchela**
English

2021
- **Directorate of Education**
Baccalauréat Langues Étrangères

2020

Skills

- Topographic and construction surveying (GPS, Total Station, Level).
- Site layout and implementation for infrastructure projects.
- Team supervision and field coordination
- Communication and reporting in English and French
- Strong problem-solving and adaptability on site
- Leica TS06 & TS06+
- Leica TS10
- GNSS HI-TARGET

Projects

- **Installation of the 60 kilovolt Ouargla TRAMWAY power line(IGAM)**
- **Railway Construction Project – Béchar to Gara Djebilet (CRCC Algeria)**
- **Solar energy installation project, Bordj Bou Arreridj province (Radco)**
- **Sonatrach Alrar boosting project phase 3**
